## HANDYMAN SERVICES

Ask your City Wide contact for more information

Having a handyman on call is a valuable time saver for your business. Consider the stress those small issues cause when they begin to pile up. Handyman Services may be the missing component to your Maintenance Plan.

Small tasks that take time out of your day are no problem for City Wide.

City Wide will work with you to create a "punch list" that is customized for your building, and even your industry. The list could cover repairs, regular maintenance, supplemental project work, and general labor needs.

Handyman services can be one-time jobs that are scheduled as needs arise. In these instances, you can bring City Wide in to clear out junk, make minor repairs, or paint and patch as needed.

It can also be very beneficial to schedule monthly or quarterly handyman appointments, which allow for minimal office disruption. This allows you to cross off your handyman to-dos in one pre-scheduled trip!

This extension of your basic maintenance service allows for planning ahead. Jobs like moving furniture, hanging pictures, and small repairs are all completed in one day, instead of spread across weeks.

Call City Wide today to get more information about Handyman Services for your building.
