

World-Class Construction Clean Services from City Wide

Bring City Wide's management expertise to your construction site during any stage of your project planning. We work directly with the Site Superintendent or Project Manager to deliver stress-free solutions that keep your project on schedule.

Final Cleans: Our Most Popular Service

Clients count on us for final/construction cleans on their projects. This typically entails a complete detail clean of all vertical and horizontal surfaces, detailed floor work, window cleaning, and high dusting. But that is just the beginning. Show us your punch list and we will work to find a solution.

Our Process Focuses on Your Needs

City Wide will fully understand your scope of work, timelines, and priorities before we begin each project. Our managers are on-site before, during, and after each project to address issues and keep the work on schedule.

You Save Time When We Manage Cleans

City Wide takes over the burden of managing project cleans. We are confident that once you try our service, City Wide will become a reliable and indispensable extension of your management team.

Communication is the Key

Here's what you can expect from us:

SCOPE OF WORK AGREEMENT

We begin with a full understanding of your scope, timeline, and priorities.

CONFIRMATION OF MEASUREMENTS

We make sure your project and scope are in-line with expectations.

PROPOSAL

You get a complete list of expectations including delivery, time, and cost at project outset.

ONGOING COMMUNICATION

You will get progress reports and ongoing updates through email and on-site visits.

POST-WORK VERIFICATION

A post-project check-in will verify your satisfaction with the completed work.
