

Dental Clinics

Keeping a dental office clean is no small job: expensive equipment and high traffic means special care must be taken to properly maintain the facility. We have extensive experience cleaning dental offices across the country. With City Wide, you'll always receive:

- Proper use of disinfectants
- Variety of green cleaning options
- Special attention to every nook and cranny
- Extra care taken with all hard surfaces

City Wide understands that your situation is truly unique. We work to manage your facility to your specifications by providing two facility managers to ensure you receive the level of service promised each and every time.
